Detailed Description

Martin System Set K9 Remote + Chameleon IIIB Large + Finger Kick + charging kit

The Chameleon® III B collar has the highest degree of technology. It has been invented for comfort, durability and discretion. This is a remote training collar that can be used as vibration only, tone only, LED only, stimulation only, or any combination of the aforementioned.

The MEDIUM size Chameleon COLLAR has 3 contact islands on each side and measures 11 inches and will fit a dog with neck measurements 15–19 inches.

The LARGE size Chameleon collar has 4 contact islands on each side and measures 13.5 inches and will fit a dog with neck measurements 19–24 inches.

K9 REMOTE CONTROL

The K9 is a Bluetooth connected transmitter equipped with a colorized backlite screen. It has a range of 1000 meters with a Chameleon® III B. This remote control have 18 stimulation levels and 8 program modes that can be customize via our free Doggify App. By default, the K9 allows you to train two dogs on the same transmitter (but this setting can be change in Doggify). You have 2 stimulation buttons for each dog which gives you the option to work with two different frequencies for one dog if needed. The transmitter automatically remembers the last stimulation level chosen for each button.

FINGER KICK

The patented Finger Kick is paired with your Martin System remote control and allows you to wirelessly trigger the remote's stim button in a hands-free fashion.
