Student Template

Lilly urban

Hey, kids! The best designs use contrasting, bright colors, stay within the dotted lines and fill up the whole space with color. Avoid words or design features closer than 1-1/2" from the dotted edge. Use non-neon markers ONLY. Ask your teacher for a Teacher Template to check how your final design will look once all the advertising elements are placed. Please note: When printing this document, please choose "actual size" and measure dotted perimeter to ensure it prints 12.3" x 6.3".

Design by Lilly, Indian River Elementary School
