### CHAPTER 19 (UTILITIES AND SERVICES)

#### SCHEDULE OF COSTS/FEES

##### **Section 19-2. Utility deposit, service charge and transfer fee:**

There is a minimum monthly base charge for water, sewer, reclaimed (if available), solid waste and stormwater whether the residence or building is occupied or vacant based on services available at that location.

To establish service you must provide a valid driver's license or a valid Florida Identification Card, social security number and one of the following: lease, deed or final settlement statement. If a social security number is not provided and no previous credit history with the City then the deposit is the maximum amount allowed.

If the deed or final settlement is provided by the seller of the property, the buyer will be charged the maximum deposit and service charge. If the buyer provides a valid driver's license or a valid Florida Identification Card and social security number this will be used to determine the amount of the deposit for the new owner.

It is the policy of the City to require a deposit for water, and sewer service as follows:

### Residential Water & Sewer Service

Deposits are based on credit score as verified by the “On-Line Utility Exchange”:

Green	Yellow	Red
W - \$0.00	\$50.00	\$100.00
S - \$0.00	\$50.00	\$100.00

Definitions of green light, yellow light and red light are listed below:

**Green Light** – standard deposit waived. Based on the information provided, the applicant has a good credit score and poses low credit risk.

**Yellow Light** - deposit required. Based on the information provided, the applicant has an average credit score and poses moderate credit risk.

**Red Light** – maximum deposit required. Based on the information provided, the applicant has a poor credit score or exchange hits and poses high credit risk.

### Non-Residential Water Service

The security deposit for water accounts based on the various meter sizes offered is as follows:

3/4”	\$100.00	1”	\$125.00
1-1/2”	\$150.00	2”	\$175.00
3”	\$300.00	4”	\$500.00

### Non-Residential Wastewater (Sewer) Service

The security deposit for wastewater accounts based on the various meter sizes offered is as follows:

3/4”	\$100.00	1”	\$125.00
1-1/2”	\$150.00	2”	\$200.00
3”	\$400.00	4”	\$650.00

In the event only wastewater service is furnished by the City and no water services, the deposit for the account will be determined by property use and the size of the meter typically used for that property classification.

### Additional Deposits

In the event the utility service is disconnected 2 or more times for non-payment or has received 2 or more returned checks within a 12-month period, or insufficient utility credit score, the City will require a deposit(s) as outlined above.

### Deposit Payments Residential Accounts

Owner occupied locations may be billed for the deposit(s) and will have 10 days to pay said deposit(s). If the customer does not pay the deposit(s) within the 10-day period, utility services will be subject to disconnection.

Tenant occupied locations are required to pay deposit in full at the time the account is established. An applicant for city water and sewer services will not be required to make a deposit when the applicant meets one of the following conditions:

- 1) Has an existing account with good credit standing with the City. Discontinuance of service for non-payment on an existing account will be treated as new applicants.
- 2) Any new customer establishing services will have their credit checked with their social security number as verified by the “On-Line Utility Exchange” or any other provider of similar services. The City will perform one credit check for each new account opened. Based on the results, the customer may or may not be required to pay a deposit.

The City will not transfer a deposit from one individual to another individual. Transfers of deposit(s) from one address to another address for the same individual will be made provided the account balance at the active service location is in a current status (outstanding balance is zero).

If a customer transfers his or her deposit to an account within the system, the final bill on the old account, if delinquent, will be transferred to the current account for collection and the current account will then become subject to collections and disconnection procedures. Customers that are continuously delinquent are subject to an update of their deposit requirements.

#### **Non-Residential Accounts**

- 1) The customer is required to pay the full deposit at the time the account is being established.
- 2) Failure to comply with this requirement will result in discontinuance of service.

#### **Refund of Deposits**

The City will credit the deposit to the customer’s account when:

- 1) Residential accounts - The customer has had no delinquencies nor been disconnected for non-payment in the previous 36 months;
- 2) Tenant accounts – deposits will be held until the account is closed;
- 3) Commercial accounts – deposits are held until the account is closed. The deposits are refundable only to the customer whose name appears thereon.

#### **Residential and Non-Residential Customer Deposit**

Deposits are kept in a non-interest-bearing account.

#### **Records of Deposit**

The City will keep records to show:

- Name and address
- Social Security / Federal Employer Identification Number
- Email Account
- Phone Number
- Amount and date of deposit
- Each transaction concerning deposit

The City will issue a receipt of deposit to each applicant from whom a deposit is received.

A record of each unclaimed deposit will be maintained and the City will make a reasonable effort to return the deposit.

**Section 19-6. Payment of bills; service charges:**

Bills for the monthly fee for water, wastewater, reclaimed water, stormwater, refuse and/or recycling services shall be payable as of the billing date

**Additional Postage**

Any additional postage charges incurred by the city (for international mailing of utility bills, returned mail, etc.) will be billed to the customer account.
