Alfa Blank Starter Pistols | Rugged and Reliable | AlfaProj

The Alfa 209 revolvers are rugged and reliable with bright orange grips made of high-impact polymer and the orange cap on the barrel is a reminder that the revolver is not a firearm. The six-shot swing-out cylinder allows easy loading and unloading. A lanyard ring is included for security. Comes complete with a carrying case and cylinder cleaning brush. .209 primer ammunition is recommended.

Sorry to hear that, Dennis. Do you know when it was returned to us? It can take a couple days for a return to be processed. As soon as returns are processed, we reach out on undeliverable orders to verify the address.

★★★★★ Good product.

Another good quality product that RAM keeps in stocks. Been looking at these for awhile to step up my dog training. Finally found some blank ammo to try it out. Works great is plenty loud to work on gun fire neutrality. I'm sure I could tone it down with a shorter blank 22 load.

I like the orange grip and what would be the barrel end. This revolver dose not in fact have a barrel but is ported at the top just past the cylinder to allow any gas to escape. No problems with gas in your face. Great piece of training equipment.

★★★★★ Awesome Blank Gun!

I have 2 other cheaper blank guns and they misfire all the time. Also the cylinders don't lock. I train bird dogs, and need a reliable blank gun that I can depend on. This is the real deal! Right out of the box you notice the quality. This is built like a real gun and goes bang every time!
