Subject: G2-G11 Canal Improvements – Group A
Scope and Fee Proposal for Construction Phase Services

Dear Mr. Lariscy:

We are pleased to present the attached scope of work and fee estimate for this phase of the project. The attached scope includes construction engineering, and Inspection (CEI) services for the Group A projects associated with G2-G11 Canal Improvements.

As estimated in the Mead & Hunt's Technical Memorandum titled "Narrative to Accompany Conceptual Plan for G2 and G11 Canal Improvements in pursuit of Grant Funding", the total estimated cost for surveying, environmental, engineering, permitting, bidding and CEI services was \$3,173,040. Fees to date for the Alternatives Analysis, Group A design and permitting, Group B design and permitting (to date) and the attached proposed fee for the Group A construction phase services represents approximately 53% of this original estimated total cost, leaving over \$1.4M available for the remaining services. We firmly believe that we will be successful in delivering the remaining project services within the original estimated total budget.

We appreciate this opportunity to continue serving the City. If you have any questions or require additional information, please contact me.

Sincerely,
MEAD & HUNT, Inc.
