Volusia County - Waste Cleanup
Royal Oaks Subdivision
Edgewater, Florida
No Further Action Proposal

Dear Mr. McAllister:

We have reviewed the "Groundwater Flow Survey" submitted to the Department on August 6, 2003 as an addendum to the "Limited Site Assessment Report," which was submitted on June 2, 2003. Based upon the results of the ground water assessment activities detailed in the report and the ground water flow data provided in the survey, the Department will not require any further assessment and remediation in the area of the drum excavation, nor for the ground water encompassed by ground water monitoring wells MW-2, MW-3, MW-4, and piezometer PZ-1 as depicted in Figure A-1 of the "Groundwater Flow Survey" at the Royal Oaks Subdivision site located at Latitude N 28° 59' 10.08", Longitude W 80° 55' 0.85", Edgewater, Volusia County, Florida. However, this letter does not certify that the entire site is clean, and the Department reserves the right to initiate appropriate actions at this site if contamination is discovered in the future.

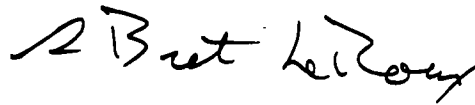

Within 30 days of receipt of this letter, please abandon all ground water monitoring wells in accordance with Rule 62-532.500(4), Florida Administrative Code, and provide the Department sufficient documentation to verify well abandonment. The Department will review the abandonment documentation, and upon its determination that proper abandonment has been performed, will provide written confirmation that No Further Action status has been granted.

If you have any questions concerning this correspondence, you may contact me by telephone at (407) 893-3331, or by email at Dale.Melton@dep.state.fl.us.

Sincerely,

Dale Melton
