Department Name Public Works Department Grant Designee Jeff Lariscy/Dicy Hall/Sandy Camp
Granting Agency FI Dept. of Environmental Protection (FDEP) Grant Title Diesel Emission Mitigation Program (DEMP)
Project Name New Trucks Project Description Replace 3 Class 4-7 Diesel Trucks
Project Timeline 1/2026-12/31/2027 Recurring Grant: Yes ☐ No ☒
Beginning and Ending Date

	Yes	No	Amount
1. Grant amount <u>\$412,313.00</u>			
2. Anticipated grant match and amount	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<u>\$0</u>
3. Do you have the appropriate match on hand? If "No" please attach an explanation.	<input type="checkbox"/>	<input type="checkbox"/>	
4. If required, do you have the necessary permits in hand? (Permits may take a year to receive)	<input type="checkbox"/>	<input type="checkbox"/>	
5. Do you have a cost estimate for this project?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
6. Can this project be completed within the grant timeframe?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
7. Can you begin immediately after grant award?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
8. Multiple grants for this project? If so attach separate detail identifying each grant & amount	<input type="checkbox"/>	<input checked="" type="checkbox"/>	

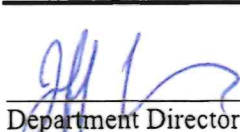

Grant Description:

The purpose of this program is to support the purchase of 3 new Class 4-7 trucks powered by diesel, compressed natural gas (CNG), to replace Class 4-7 trucks of engine model year 2009 or older. Recipients must purchase a new Class 4-7 truck for each existing unit scrapped. A 3" hole must be bored through the engine block of an existing unit, and the frame rails of the eligible existing unit must be cut completely in half

Benefit(s) of Grant to City/Department:

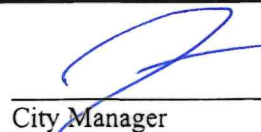

FDEP prioritizes projects in communities actively engaged in disaster recovery and resiliency planning, as well as those that have experienced significant economic, environmental, and operational impacts from severe weather events in recent years. The City meets this criteria and would also benefit from the grant's potential to significantly reduce diesel-related emissions, improving environmental quality and long-term community resilience. In addition, by offsetting the cost of necessary equipment upgrades, the DEMP grant would generate meaningful budget savings for the City, freeing local funds for other critical infrastructure and community needs.

Budget Line Code# XXXX to support reimbursement basis funding. Council approval and budget amendment needed for line code.
